

CHAPTER 14 – MUNICH, IFAT 2022

Since 1938, dark powers have attempted to conquer Munich time and again. Together with TELL, the VONROLL WATERKNIGHTS rose to the challenge and built a ROOM FOR GOOD at the IFAT trade fair. Here, thousands of comrades-in-arms and supporters came together to celebrate ZEROWATERLOSS and plan the future.

TELL: „There's nothing better than the first sip of cold beer after a long, hot day!“

The WATERKNIGHTS are in a good mood. The discussions and agreements in the ROOM FOR GOOD have exceeded all expectations. Many wondered how ZEROWATERLOSS was positioned to face the dark legions of loss, contamination and theft so successfully in such little time. TELL: „Half the world is now talking about ZEROWATERLOSS. At IFAT, I was often asked what it is that sets VONROLL HYDRO apart from others. But the answer is obvious: **VONROLL HYDRO MAKES ZEROWATERLOSS HAPPEN!** THAT is it –ZEROWATERLOSS simply happens for our customers! The simple implementation is the real star!“. Now that is something for the WATERKNIGHTS and TELL to toast.
