### MOATED CASTLE OF HELVETIA: REINFORCEMENT FOR ZEROWATERLOSS

After the council of VONROLL WATERKNIGHTS adopted the four ZEROWATERLOSS maxims as a basis for a sustainable water strategy (see Chapter 5), the forces of good can be quickly strengthened. The very powerful trade order HB, which has been on the planets PIPES and SPECIALS for many solar years, has united with the VONROLL WATERKNIGHTS and in future will take command in Helvetia over the ZEROWATERLOSS tools pipe, pipe fitting and gate valve from the VONROLL arsenal. This means that the WATERKNIGHT spirit and matter can concentrate on the development and use of their powerful weapons, the DIGITS in INFRA-PORT and the SENSORIX for TELL and ORTOMAT.

The forces of good are now positioned to eliminate any unfolding supply problems in the upcoming 2021 solar year of the Western calendar arising due to the caravans from the galaxies Napoleon and Habsburg being held up or even stopped at the C19 wall. The forces of good will also be able to help out the weakened troops of BärenKostWerk. It pays off that the WATERKNIGHTS have always focussed on intergalactic and Helvetian innovation and production quality.
